## **KEY CONTRACT INFORMATION**

### **1. MANDATORY USE CONTRACT:**

[\(Return to Table of Contents\)](#)

**REF: Title 29, Chapter 6911(d) Delaware Code.** Every state department and agency within the Executive Branch and Judicial Branch of the state government shall procure all material, equipment and nonprofessional services through the statewide contracts administered by Government Support Services, Office of Management and Budget. Delaware State University, Delaware Technical and Community College, the operations funded by Public School Districts, Delaware Transit Corporation, Department of Elections, the Legislative Branch and the Board of Pension Trustees and their consultants are specifically exempted from the requirements of this subsection.

### **2. CONTRACT PERIOD:**

[\(Return to Table of Contents\)](#)

Each contractor's contract shall be valid for a one (1) year period from November 1, 2008 through October 31, 2009. Each contract may be renewed for two (2) additional one year periods through negotiation between the contractor and Government Support Services. Negotiation may be initiated no later than ninety (90) days prior to the termination of the current agreement.

**Contract has been extended through October 31, 2010.**

### **3. VENDORS:**

Revised: March 30, 2009 vlm

4. **SHIPPING TERMS:**

[\(Return to Table of Contents\)](#)

F.O.B. destination, freight pre-paid.

5. **DELIVERY AND PICKUP:**

[\(Return to Table of Contents\)](#)

**PPC Lubricants, Inc.**

Stock – 7 Days ARO

Non-Stock - 21 Days ARO

**CONSOLIDATED MOTOR OIL**

Stock - 5 Days ARO

Non-Stock – 10 Days ARO

6. **PRICING:**

[\(Return to Table of Contents\)](#)

Prices and/or rates shall remain firm for the first quarter, then adjusted on a quarterly basis for the remainder of the contract term. Pricing can be found in the Excel spreadsheet following the Award Notice.

7. **PRICE ADJUSTMENT:**

Price adjustments will be calculated as follows: Quoted prices shall be adjusted on a quarterly basis for the contract term (February 1, May 1, August 1, and November 1) based on the change in value of the U.S. Department of Labor; Bureau of Labor Statistics; Producer Price Index (series id: PCU324191324191) for lubricating and similar oils.

The change in this index will be used to increase or decrease prices for the products group specified in the Appendix A. The method of price adjustment will be to review the most recent non-preliminary index available on the first day of the month immediately preceding the quarterly adjustment date. The change in the index rate will determine the change in prices for the contract quarterly period.

The website for the Producer Price Index is <http://data.bls.gov/cgi-bin/srgate> .

**ADDITIONAL TERMS AND CONDITIONS**

[\(Return to Table of Contents\)](#)

8. **BILLING:**

The successful vendor is required to **"Bill as Shipped" to the respective ordering agency(s).** Ordering agencies shall provide at a minimum the contract number, ship to and bill to address, contract name and phone number.

9. **PAYMENT:**

The agencies or school districts involved will authorize and process for payment each invoice within thirty (30) days after the date of receipt of a correct invoice.

10. **PRODUCT SUBSTITUTION:**

All items or services delivered during the life of the contract shall be of the same type and manufacture as specified or accepted as part of the proposal unless specific approval is given by Government Support Services to do otherwise. Awarded vendors are highly encouraged to offer any like substitute product (s), either generic or brand name, at any time during the subsequent contract term, especially if an opportunity for cost savings to the state exists. In all cases, the state may require the submission of written specifications and/or product samples for evaluation prior to any approvals being granted.

11. **ORDERING PROCEDURE:**

Successful contractors are required to have either a local telephone number within the (302) area code, a toll free (800) number, or agree to accept collect calls. Each agency is responsible for placing their orders and may be accomplished by written purchase order, telephone, fax or computer on-line systems. The State makes payments for goods and services using procurement (credit) cards, electronic funds transfer and/or conventional checks. The contractor or vendor must accept full payment by procurement card and/or conventional check at the State's option, without imposing any additional fees, costs or conditions.

12. **REQUIREMENTS:**

This contract is issued to cover the Motor Oil, Re-Refined Motor Oil, Lubricant and Anti-Freeze requirements for all State Agencies and shall be accessible to any School District, Political Subdivision, or Volunteer Fire Company.

13. **HOLD HARMLESS:**

The contractor agrees that it shall indemnify and hold the State of Delaware and all its agencies harmless from and against any and all claims for injury, loss of life, or damage to or loss of use of property caused or alleged to be caused, by acts or omissions of the contractor, its employees, and invitees on or about the premises and which arise out of the contractor's performance, or failure to perform as specified in the Agreement.

14. **NON-PERFORMANCE:**

In the event the contractor does not fulfill its obligations under the terms and conditions of this contract, the ordering agency may purchase equivalent product on the open market. Any difference in cost between the contract prices herein and the price of open market product shall be the responsibility of the contractor. Under no circumstances shall monies be due the contractor in the event open market products can be obtained below contract cost. Any monies charged to the contractor may be deducted from an open invoice.

15. **FORCE MAJEURE:**

Neither the contractor nor the ordering agency shall be held liable for non-performance under the terms and conditions of this contract due, but not limited to, government restriction, strike, flood, fire, or unforeseen catastrophe beyond either party's control. Each party shall notify the other in writing of any situation that may prevent performance under the terms and conditions of this contract.

16. **AGENCY'S RESPONSIBILITIES:**

The Agency shall:

- a. Examine and review in detail all letters, reports, drawings and other documents presented by the Contractor to the Agency and render to the Contractor in writing, findings and decisions pertaining thereto within a reasonable time so as not to delay the services of Contractor.
- b. Give prompt written notice to the Contractor whenever the Agency observes or otherwise becomes aware of any development that affects the scope or timing of the Contractor's services.

17. **FORMAL CONTRACT AND/OR PURCHASE ORDER:**

No employee of the Contractor(s) is to begin any work prior to receipt of a State of Delaware Purchase Order signed by authorized representatives of the agency requesting service, properly processed through the State of Delaware Accounting Office. A purchase order, telephone call, fax or State credit card shall serve as the authorization to proceed with work in accordance with the bid specifications and the special instructions, once it is received by the Contractor(s).

18. **TERMINATION OF P.O.'s:**

- a. Termination for Cause If, for any reasons, or through any cause, the Contractor fails to fulfill in timely and proper manner his obligations, or if the Contractor violates any of the covenants, agreements, or stipulations of this contract, the Agency shall have the right to terminate the P.O. by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least five (5) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the contractor in the performance of the P.O. shall, at the option of the Agency, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials which is usable to the Agency.

18. **TERMINATION OF P.O.'s:** (continued)

- b. Termination for Convenience The Agency may terminate the P.O. at any time by giving written notice of such termination and specifying the effective date thereof, at least fifteen (15) days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, models, photographs, reports, supplies, and other materials shall, at the option of the department, become its property and the Contractor shall be entitled to receive compensation for any satisfactory work completed on such documents and other materials which are usable to the Agency. If the P.O. is terminated by the Agency for convenience, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor called for by the P.O., less payments or compensation previously made; provided, however, that if less than sixty (60) percent of the services covered by this contract have been performed upon the effective date of such termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this P.O.) incurred by the Contractor during the contract period which are directly attributable to the uncompleted portion of the services covered by this P.O.

19. **TERMINATION OF CONTRACT:**

- a. Termination for Cause - If, for any reasons, or through any cause, the Contractor fails to fulfill in timely and proper manner his obligations under this Contract, or if the Contractor violates any of the covenants, agreements, or stipulations of this Contract, the State shall thereupon have the right to terminate this contract by giving written notice to the Contractor of such termination and specifying the effective date thereof, at least 5 days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, maps, models, photographs, and reports or other material prepared by the Contractor under this Contract shall, at the option of the State, become its property, and the Contractor shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials which is usable to the State.
- b. Termination for Convenience - The State may terminate this Contract at any time by giving written notice of such termination and specifying the effective date thereof, at least 15 days before the effective date of such termination. In that event, all finished or unfinished documents, data, studies, surveys, drawings, models, photographs, reports, supplies, and other materials shall, at the option of the State, become its property and the Contractor shall be entitled to receive compensation for any satisfactory work completed on such documents and other materials, and which is usable to the State. If the Contract is terminated by the State as provided herein, the Contractor will be paid an amount which bears the same ratio to the total compensation as the services actually performed bear to the total services of the Contractor covered by this Contract, less payments of compensation previously made. Provided however that if less than 60 percent of the services covered by this Contract have been performed upon the effective date of termination, the Contractor shall be reimbursed (in addition to the above payment) for that portion of the actual out-of-pocket expenses (not otherwise reimbursed under this Contract) incurred by the Contractor during the Contract period which are directly attributable to the uncompleted portion of the services covered by this Contract.

20. **DRUM PICK-UP:**

The successful vendor shall pick-up all empty drums as they become available. This includes any drums left over from the previous contract vendor(s). Agencies are to inform the vendors(s) of the quantity of empty drums that shall be picked up.

21. **DRUM DEPOSIT:**

There is no drum deposit levied on returnable drums.

22. **DEFINITIONS:**

API Certification – The American Petroleum Institute Engine Oil Licensing and Certification System (APIEOLCS) requires that re-refined oils pass the same cold-start, pumpability, rust-corrosion, engine wear & high temperature viscosity tests as virgin oils, so that consistent performance standards for all engine oils are met. Certifications submitted in response to this RFP must be for the finished product (s) to be provided under the contract.

ASTM Standards – The American Society for Testing and Materials specifies the exact way in which a product is to be tested, including the rule, techniques and conditions which **must** be adhered to in engineering design so that all manufacturers are working with the same procedures and values.

Recyclability – The ability of a product or material to be recovered from or otherwise diverted from the solid waste stream for the purpose of recycling.

Re-Refined Oil – In the context of this RFP refers to the base oil stock derived from waste oil which has undergone a series of mechanical and chemical processes, including, but not limited to, contaminant removal, dehydration, vacuum distillation and hydro-treating in order to produce a product consistent in properties and quality (see Section J for more details on the requirements of this process).

SAE – The Society of Automotive Engineers works with API and ASTM in developing and maintaining testing and licensing requirements for various oils and lubricants.

Virgin products are those made with 100% new/raw materials and contain no recycled content.

## TECHNICAL SPECIFICATION

The specifications cover the grades of refined petroleum oil and lubricants, which will be suitable for use in internal combustion engines, transmissions and grease applications. These products shall not be adulterated with waste lubricants or similar products.

The oils and lubricant products shall be manufactured in accordance with recognized industry and vehicle/engine manufacturers' specifications. The Supplier shall inspect each shipment to ensure that each delivered lot meets the specifications and is not contaminated at the time of delivery. Deliveries of product under this specification shall be subject to quality testing by the State to ensure compliance with the specifications. The Supplier may be asked to provide lab analyses of products at its expense, including at a minimum the following information: viscosity, viscosity index, contents of additive package, and fingerprint chemical analysis. During the term of the contract, Supplier shall notify the purchaser of any changes in product formulation within thirty (30) days of the product reformulation.

All metal drums must be contaminant free, new or A-1 reconditioned drums. Reconditioned drums shall meet the most current Class 1 requirements of Federal Specification PPP-D-732C. All containers and drums shall be filled and sealed at suppliers' refinery. The following information shall be stenciled on each drum unless the vendor as a re-packing agreement. If containers are being filled under a repackaging agreement, a copy of the agreement shall accompany your proposal.

1. API Number and S.A.E. Number
2. The proper specification number, military or otherwise, where applicable.
3. Trade name of material
4. Supplier's name
5. Contents in gallons of oil and contents in pounds of grease

All items submitted shall be the producer's highest quality. Normal industry-wide manufacturing tolerances will be acceptable. Acceptable manufacturers should have any required licenses with the American Petroleum Institute (API) for current service requirement classifications.

A. HEAVY DUTY MOTOR OIL (Single and Multi-Viscosity)

These oils shall be suitable for the lubrication of heavy-duty diesel engines under all conditions of service including ambient temperatures of 10 degrees Fahrenheit, and shall meet the most current API service requirement classifications, and shall be upgraded to newer API service classifications on the effective dates for the new classifications. All products shall also be backward compatible with previous API service requirement classifications.

## TECHNICAL SPECIFICATION

### A. HEAVY DUTY MOTOR OIL (Single and Multi-Viscosity) – (Continued)

These heavy-duty motor oils also shall pass diesel engine manufacturers' specifications.

Single Viscosity Grades – 10W, 20W, 30W, 40W, & 50W

	10W	20W	30W	40W	50W
API, CF	X	X			
API CF-4, CF-2, CF, SJ			X	X	
API CF-2, CF, SJ					X
Mack EO-K/2, EO-K		X	X		
Detroit Diesel Series 53, 71, 92			X	X	X
Allison C-4, C-3	X		X		
CAT TO-2	X		X		

Multi-Viscosity Grades –15W40 & 10W30

	15W40	10W30
API, CJ4, CI-4 PLUS, CI-4, CH-4, CG-4, CF-4	X	All except CI-4 PLUS
API SM, SL	X	X
Caterpillar, ECF-2, ECF-3	X	X
Cummins CES 20081	X	
Detroit Diesel, 93K218	X	
Mack, EO-O Premium Plus 07	X	X
Volvo, VDS-4	X	X

### A1. RE-REFINED MOTOR OIL (Single and Multi-Viscosity)

Re-refined oils meeting the most current API service requirement classifications for 5W30, 10W30 and 15W40 will be considered as equal to virgin oil base stocks.

### B. ENGINE OIL

These oils shall be formulated to meet or exceed severe operating requirements for both on and off highway internal combustion engines fueled with gasoline or alternative fuels. The oils shall meet the most current API service requirements classifications and shall be upgraded to newer API service classifications on the effective dates for the new classifications. All products shall also be backward compatible with previous API service requirement classifications.

## TECHNICAL SPECIFICATION

### B. ENGINE OIL (cont.)

These engine oils shall also pass passenger car manufacturers' latest warranty requirements.

These engine oils shall be available in the following grades:

	5W20	5W30	10W30	10W40	20W50
ILSAC GF-4	X	X	X		
API SM, SL, SJ, & prior API categories	X	X	X	X	X
GM 6094M	X	X	X		
Ford WSS-M2C930-A	X				
Ford WSS-M2C929-A		X			
Chrysler MS 6395N	X	X	X		
Energy Conserving	X	X	X		

### B1. RE-REFINED BASE OIL

Re-refined base oils meeting the most current API service requirement classifications for 5W30, 10W30 and 15W40 will be considered as equal to virgin oil base stocks.

### C. OUTBOARD MOTOR OIL

This motor oil shall be a two-cycle oil, B.I.A.; TC-W-III approved, to be used in a 2 cycle outboard engine.

This oil shall be designed to meet the requirements of all major manufacturers of two cycle outboard engines, including Johnson, Evinrude, Mercury and Chrysler.

### D. MULTI-PURPOSE GEAR OIL

This oil shall be supplied in S.A.E. grades 80 W/90 and 85 W/140 and shall meet military specification MIL-PRF-2105E, Mack GO-J, or the API Service Designation GL5 and MT1, including most current revisions, and shall be suitable for use in limited slip differentials.

### E. MULTI-PURPOSE GREASE

The grease shall be a homogenous combination of refined mineral oil, lithium and such other constituents as may be necessary to assure the following:

1. Low temperature performance
2. High temperature performance
3. Water washing resistance
4. Oxidation resistance
5. Storage stability
6. Leakage resistance
7. Texture Smooth - Cohesive and Adhesive
8. Mechanically stable (resists change in severe service)
9. Free of any disagreeable odor

### TECHNICAL SPECIFICATION

E. MULTI-PURPOSE GREASE ( cont.)

The chemical and physical characteristics shall be as specified in the following tables:

<b>TYPE I CHARACTERISTICS (EXTREME PRESSURE)</b>	<b>#2 N. L. G. I.*</b>
Penetration at 77 degrees F	
60 strokes worked – (tenths of mm)	265/295
10,000 strokes worked – (tenths of mm)	+
Unit change	-20
Dropping Point degrees F (min.)	350
Type Soap	Lithium
Soap content percent by weight (typical)	7.0/9.0
Water	Trace
Grease Oxidation, psi drop (max.)	10
Leakage tendency of grease percent lost (max.)	10
Base Oil Viscosity SUS at 100 degrees F	700/1000
*National Lubricating Grease Institute	

The grease shall be designed for all season use in grease lubricated components of automotive equipment including chassis bearings, suspension units, steering linkage, wheel bearings, universal joints and water pumps of passenger cars, trucks, buses and other equipment. The grease shall be designed for the lubrication of wheel bearings equipped with disc brakes, including front wheel bearings of front wheel drive cars.

## TECHNICAL SPECIFICATION

### E. MULTI-PURPOSE GREASE ( cont.)

#### TYPICAL PROPERTIES:

## TECHNICAL SPECIFICATION

### F. MOLY GREASE

Heavy-duty, multi-purpose lubricants enhance with molybdenum disulfide for applications that demand a long-lasting, tenacious, adhesive film. This superior film provides protection against water, salt brine, rust and corrosive contaminants. Molly Grease is recommended for: Heavy-duty Chassis lubrication, Ball Joints, King pins, Steering Knuckles, Fifth Wheels, Bucket Loader Ball Joints, Open Gears, Racks, Cams, Slides and Ways, Underwater Applications. . [NLGI grade 00, 0, 1 or 2, ASTM D217.

### G. HYDRAULIC OIL

The hydraulic fluid shall be an oil containing rust and oxidation inhibitors plus an anti-foam agent and an anti-wear additive.

TYPICAL PROPERTIES S.A.E.	-10 32AW	+10 46AW	20 68AW

### H. AUTOMATIC TRANSMISSION FLUID

#### TRANSYND

Transynd TES-295, Severe Duty Extended Interval Automatic Transmission fluid exhibits a higher resistance to oxidation and viscosity change than the c-4 specification fluids, while providing superior wear resistance and frictional properties for extended use in severe duty applications, such as city transit buses; refuse packers, tour coaches, and transmissions with Allison retarder options.

TEST	METHOD	REQUIREMENT
Metals Content (ppm)	ASTM D4951	Report: Ba, B, Ca, Mg, P, Si, Na, and Zn

Ppm – parts per million KV – Kinematic Viscosity	cp – centi-poise BV – Brookfield Viscosity	eSt – centi-Stokes

## TECHNICAL SPECIFICATION

### I. UNIVERSAL TRACTOR FLUID

The tractor fluid shall be UTF C-4, used for single multi-functional transmission, hydraulic and wet brake fluid for the new generation of larger tractors plus those already in the field. This fluid is designed for the hydraulic-transmission system of self-propelled implements such as combines, cotton pickers, hay cubers, windrowers, corn pickers, as well as towed types of related equipment and equipment with hydrostatic drives. This tractor fluid is to be used wherever the following products are recommended:

Allis Chalmers	Hydraulic Power Fluid 272843 Transmission and Hyd. Fluid 821
John Deere	J20C, J21A, J20A Fluid
Ford Tractor	ESN-M2C 134-D M2C86-A and M2C134-A
International Harvester	B6, HY-TRAN
Massey Ferguson	M-141, M-1110, M-1127, M-1129A, M-1135
Oliver Tractor	TYPE 55
J.I. Case	MS-1206, 1210, JIC-143, JIC-145, JIC-185
Minneapolis-Moline	Hydraulic Fluid
White Farm Equipment	UHTF, TYPE 55
Detroit Diesel Allison Div. C-4 fluid	
Caterpillar	TO-2
Sundstrand Hydrostatic Transmissions	

#### TYPICAL ANALYSIS:

Viscosity SUS @ 210 degrees F	55.68
Viscosity SUS @ 100 degrees F	285.7
Viscosity Index	150
Flash Point, degrees F	420
Pour Point, degrees F	-25

### J. RE-REFINED OIL

Offerors **shall** submit documentation from the re-refiner, which demonstrates that the re-refined motor oil products being PROPOSAL have undergone the following process.

1. Vacuum distillation to remove contaminants such as dirt, water, fuel and used additives from the oil.
2. Hydro-finishing to remove the remaining chemicals and contaminants from the base oil and restore its original condition.

## TECHNICAL SPECIFICATION

### J. RE-REFINED OIL – (Continued)

3. Blending of the highest quality additives into the base product to fortify and bring the oil to the desired performance standards.
4. Offer only motor oil that is certified by the American Petroleum Institute (API) and meet ILSAC requirements.
5. Submit copies of such API certification, ILSAC compliance and related warranties with Proposal response that clearly indicate the manufacturer and brand name of the finished product(s) being offered.
6. Agree to offer warranties that provide for the full-cost replacement of all equipment that is damaged as a direct result of oil which does not meet the required performance specifications when used appropriately: copies of these warranties **shall** be included with the response.
7. Offer only re-refined motor oil products that contain a minimum of 50% re-refined base stock that meets the standards and specifications designated in this RFP.
8. Offer at a minimum, re-refined oil in grades 5W30, 10W30, 5W20 and 15W40 that meet automobile/equipment manufacturer's specifications and warranty requirements as follows:
  - Multi-grades 5W30 and 10W30 shall meet the performance and warranty requirements of a broad range of passenger and light truck gasoline engines of major automobile manufacturers and the most current API service requirements classifications.
  - Multi-grade universal 15W40 shall meet the performance and warranty requirements of virtually all diesel and gasoline engine manufacturers, including, but not limited to Caterpillar, Cummins, Detroit Diesel, John Deere, Massey Ferguson and Mack and meet the most current API service requirements classifications.
9. Offer only motor oil products that are formulated using the re-refined base stock specified above and commercial additive packages blended as precise percentage to provide finished products that meet industry standards.

Offer motor oil products that are available in cases of 12 quarts and 55 gallon drums.

## TECHNICAL SPECIFICATION

### K. ANTI-FREEZE – PERMANENT:

Permanent anti-freeze shall meet or exceed all generally accepted specifications for Ethylene Glycol Anti-Freeze and shall be compatible with other brands of Ethylene Glycol based anti-freeze. The anti-freeze shall not adversely affect rubber hoses or gaskets and shall not harm automotive finishes. The ethylene glycol based anti-freeze/coolant proposed shall be of an aluminum/all metals formula, and perform equally well in aluminum as well as in conventional cooling systems. The anti-freeze/coolant shall meet or exceed the following manufacturers' specifications or the most current revisions thereof:

- 1) Regular Anti-Freeze:  
     General Motors      GM 1825M  
     Ford                      ESE-M97B44-A  
     Chrysler                MS 7170
  
- 2) Extended Life:  
     Dexcool                GM6277M  
     WSSM97B51-A-1
  
- 3) Diesel Engine – Extended Life:  
     Texaco                    ASTMD4985

### COMPOSITION

ASTM D 3306	SPECIFICATIONS	ASTM METHOD
Specific gravity 60/80 degrees F	1.110 - 1.145	D1122
Freezing Point 50% V/V	-34 degrees or lower	D1177
Boiling Point, undiluted	300 degrees F Min.	D1120
Boiling Point, 50% V/V	226 degrees F Min.	D1120
Effect on Automotive finish	No effect	D1882
pH, undiluted	5.5 – 11.0	D1287
pH, 50% V/V	7.5 – 11.0	D1287
Reserve Alkalinity	10 Min.	D1121
Water. wt. %	5 Max.	D1123
Odor	Not Offensive	
Color	Distinctive	
Effect on non-metals	No Adverse effect	
Storage capability	1 year, Min.	
Foaming	150 ml. hgt., Max. 5 sec. Break, Max.	D1881 D1881
Cavitation – Erosion	8 Min.	D2809
Weight Per Gallon, 60 degrees F, 9.4 lbs.		

## TECHNICAL SPECIFICATION

### L. ANTI-FREEZE - RECYLED

- 1) Made from 100% recycled (re-refined) ethylene glycol and meet the cooling, freeze protection, and the corrosion resistance requirements of gasoline, diesel, propane and natural gas engines with or without aluminum blocks.
- 2) Meet or exceed standards GM 1825-M, Ford ESE-M97B44-A, Chrysler MS 7170 and SAE J1034, as well as the following ASTM standards:

D4340 (Aluminum Corrosion Test)	D1121 (Reserve Alkalinity)
D1177 (Freezing Point Concentrate)	D1881 (Foaming Behavior)
D1120 (Boiling Point Concentrate)	D2570 (Corrosion Inhibitor)
D1122 (Specific Gravity Concentrate)	D1384 (Glassware Corrosion)
D1119 (Ash Content Concentrate)	D2809 (Cavitation and Erosion)
D1287 (pH Value)	

- 3) Offer ready-to-use (diluted) recycled anti-freeze that meets or exceeds new (virgin) product specifications.
- 4) Submit certification that the products meet the standards and specifications established in this RFP.
- 5) Submit certification that the recycling method used complies with all current local, state, and federal Regulations and that they are capable of recycling used antifreeze feedstock contaminated with incidental amounts of engine oil, brake fluid, transmission fluid, hydraulic fluid, solvent, gasoline, diesel fuel, heating oil, and/or propylene glycol.

### M. BULK PRODUCTS:

#### 1) ORDERING PROCEDURE

Ordering for bulk products may be on a "will call" basis or an "automatic delivery" system may be set up. Vendors will not be required to accept orders for product on a "will call" basis if the order is for less than 50% of the capacity of the tank. Automatic deliveries shall be established between the vendor and the ordering agency only after specific information regarding the account has been realized.

#### 2) DELIVERY RESPONSE REQUIREMENT

- A. Normal Delivery - All deliveries shall be completed within seven (7) days after receipt of order.
- B. Automatic Delivery - Keeping the tank filled shall be the responsibility of the vendor.

### **TECHNICAL SPECIFICATION**

N. **SPILLAGE:**

All spillages must be corrected on an immediate basis to the satisfaction of the ordering agency. All associated cost including materials and labor shall be borne by the vendor. Damage resulting from a spillage shall be the responsibility of the vendor. The vendor shall immediately notify the below listed office of all spillages:

Division of Air and Waste Management  
24 hour Hotline  
In State Phone No.: 800-662-8802  
In/Out of State Phone No.: (302) 739-5072
